## LCM8 Series Rotary Capper

- Our rotary cappers feed caps from an elevator. Caps then proceed down a chute where a starwheel claims the caps and presents them to the chuck for application and then tightening.
- Our machines are very rigid and robust with minimal maintenance requirements and come with an industry leading 3 year warranty\* on Logicap manufactured parts.
- Machine suitable for all industries: Beverage, Pharmaceutical, Food, Chemical.
- \*Warranty, terms and conditions of sale to be supplied with quotation.

- Industry leading 3 year warranty\*.
- Machine speed capability maximum up to 120 cycles per minute for 6 head machine. 90 on 4 head
- Magnetic ratchet free clutch for accurate torque application.
- Fully enclosed safety guards with interlocked safety doors.
- Capable of handling a large variety bottle and cap sizes with appropriate change parts.
- Motovario Motors/Gearboxes(SEW can be optioned)
- Waterfall style cap elevator/hopper
- Omron Sensors / PLC / HMI.
- Festo/SMC Pneumatics.
- Change parts for 1 product included.
- Short set up times and low maintenance.
- All external metal parts and frames from 304 stainless steel and anodised aluminium.

**From \$126,420 + GST ex-factory  
for 4 head**

**From \$136,930 + GST ex-factory  
for 6 head**

### MACHINE SPECIFICATIONS for capper not including elevator

Width	1.1m
Depth	1.1m
Height	2m
Weight	900kg
Air Requirements	6-8 Bar
Electrical Requirements	240V Single Phase
